

Jan Dlugosz University, Poland

invites you to participate in SPINAKER project titled

## SolidWorks Online Intensive School

### EduCert 3D

- Do you want to start your adventure with computer aided design?
- Do you want to learn the Solidworks software and certify your skills for free?
- Are you a student or a PhD student and are you thinking about international cooperation?

**Join our project!**

SolidWorks constitutes an advanced engineering software dedicated to computer-aided design process. As part of the project, Jan Dlugosz University in Czestochowa organizes an online course **SolidWorks Online Intensive School EduCert 3D**.

**The winter edition of the school take place in February 2023 in online form.**

- Participants of the course will learn Solidworks software and they will have the opportunity to obtain an international certificate **without any payment**.
- You will obtain a certificate of the online course completion **without leaving home**.
- You will learn about Polish culture, and the Polish academic environment and you will know why it is worth starting cooperation with Jan Dlugosz University.

Jan Dlugosz  
University  
in Czestochowa

Recruitment for the project will start in October 2022. If you are interested in participating please send e-mail to

Project Coordinator: Karolina Grabowska, PhD
