-TO ALL INTERESTED BUSINESS ENTITIES-

CLARIFICATION No. 2 OF THE CALL FOR TENDERS
for the subject of procurement

**„EXTENSOMETERS“,
procurement number JN 59/2026**

Question No. 1 of the interested business entity

The Group 2 seems to be interesting for us. We have at least one extensometer for such kind of applications. The technical spec is not saying exactly what type of configuration are you looking for. Please check with technical departments the following configuration and let us know, if that is what you are looking for.

<https://www.epsilontech.com/products/averaging-axial-extensometer-model-3442avg/>

Answer of contracting authority:

The contracting authority is not clear about what exactly you mean by "type of configuration". If you believe that the goods you wish to offer meet the required technical specifications or have better specifications, please submit your official tender by the specified deadline. After the deadline for submission of tenders, the contracting authority will review and evaluate received offers.
